## SERVICE AND REGULATORY ANNOUNCEMENTS

### BUREAU OF ANIMAL INDUSTRY

NOVEMBER, 1929

[This publication is issued monthly for the dissemination of information, instructions, rulings, etc., concerning the work of the Bureau of Animal Industry. Free distribution is limited to persons in the service of the bureau, establishments at which the Federal meat inspection is conducted, public officers whose duties make it desirable for them to have such information, and journals especially concerned. Others desiring copies may obtain them from the Superintendent of Documents, Government Printing Office, Washington, D. C., at 5 cents each, or 25 cents a year. A supply will be sent to each official in charge of a station or branch of the bureau service, who should promptly distribute copies to members of his force. A file should be kept at each station for reference.]

## PROCEEDINGS UNDER THE PACKERS AND STOCKYARDS ACT

*Docket No. 292.*—In re Mid-West Livestock Commission Co., market agency, Oklahoma City, Okla. Notice of inquire issued July 22, 1929, alleging insolvency. On October 1, 1929, a hearing was held in this case, but the respondent did not appear either in person or through counsel. The examiner proceeded with the case by having testimony introduced on behalf of the Government. Respondent was afforded an opportunity to submit argument on or before November 4, but as no argument was received from him up to November 20, the Acting Secretary of Agriculture issued an order suspending respondent from registration as a market agency for six months, with leave, however, during said period, to apply for revocation of his suspension upon a showing satisfactory to the Secretary of Agriculture that he is then solvent. Respondent was also ordered to cease and desist from the unfair and deceptive practice and device of so using trust funds in his possession as a market agency for various shippers as to render him unable promptly to account for and pay his shippers the proceeds of livestock sold by him, and to keep and maintain accounts, records, and memoranda pertaining to his transactions.

*Docket No. 297.*—In re Ed. H. Kloppenburg, dealer, Sioux City Stock Yards, Sioux City, Iowa. Notice of inquiry issued October 3, 1929, alleging insolvency. On October 10, 1929, the respondent acknowledged service of the notice of inquiry, admitted the truth of the matters and things therein alleged, and waived a hearing thereon. On November 2, 1929, the Acting Secretary of Agriculture issued an order suspending respondent from registration as a dealer for six months, with leave, however, during said period, to apply for revocation of his suspension upon a showing satisfactory to the Secretary of Agriculture that he is then solvent.

## RESPONSIBILITY OF DRIVERS OF VEHICLES USED IN OFFICIAL WORK

Recently the following questions were referred to the solicitor of the department for an opinion:

Where an employee in the field drives a Government-owned vehicle on official business, what is the limit of responsibility of the Government both in the matter of injury to personal property, injury to the car itself, injury to the individual, and injury to other individuals? What is the responsibility of the driver, and what protection does the Government give him?

The solicitor's reply was as follows:

The driver of a Government-owned vehicle is personally liable and may be sued for any damages caused by reason of his negligent operation of a Government-owned vehicle to personal property, as well as to injury to individuals. The only protection afforded him by the Government are the provisions of the act of December 28, 1922 (40 Stat. 1066), authorizing the heads of the departments to consider, ascertain, adjust, and determine any claim on account of damages to, or loss of privately owned property, where the amount does not exceed \$1,000, caused by the negligence of any officer or employee of the Government acting within the scope of his employment. It will be noted that this act is limited to damages to personally owned property and it does not extend to personal injury. The owner of the property damaged could elect to sue the employee-operator in lieu of filing claim under the act.

The employee's responsibility is the same if he is driving a rented car or operating his own automobile on a mileage basis, and no responsibility can be placed on the employee's supervisor.
